

Disney Parks Around the World

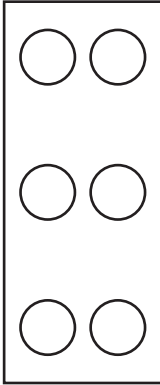

Walt gave us a new place for adventure when he opened Disneyland in 1955. His little idea for a place to enjoy with his daughters on the weekend blossomed into a theme park. The Disney company has seen fit to spread the opportunity of a closer visit by opening additional theme parks on multiple continents. Test your knowledge of these locations and their history by completing the following quest.

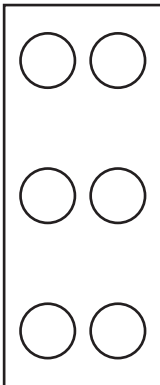

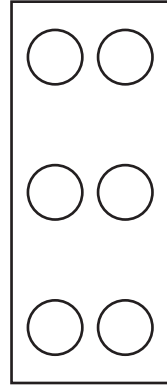

Start by listing all the Disney parks on the lines on the following page in the order of their opening dates.

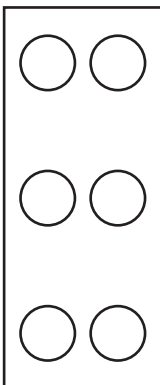

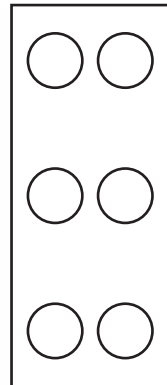

Next find the answers to all the questions. Once you have determined the correct answer, transfer the shown blank or colored dots to the left or right side of the corresponding park.

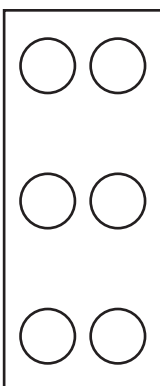

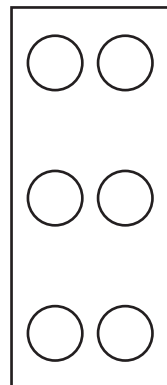

Now determine a writing system that will help you translate the dotted blocks. When translated and read in the correct order your final answer is to tell us what Disney park this word is referring to.

Tokyo Disney Sea

Left

What is the material that makes shrinking your submarine possible on Nemo & Friends SeaRider?

- Coaxium
- Chidiminium
- Shrinkabis
