

## Cupid's Couples

February is a very busy month for Cupid. He is out making matches, even in Disney movies. Now it's time to test your knowledge of these Disney couples and find many of Cupid's successful pairings.

To solve this puzzle, you will need to match the names of couples from various Disney movies. As you make the match, draw a line connecting

the corresponding black dots. Your line will pass through a number.

Use this number to index the title of the movie where this coupled can be found. These letters when read in the correct order will reveal your final question.
